PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with hands-on experience in developing Generative AI applications, Retrieval-Augmented Generation (RAG) systems, and AI-powered full-stack solutions. Proficient in Python, LLM integration, AI agents, vector databases, embeddings, and backend development using FastAPI. Experienced in building and deploying practical AI applications, including RepoMind AI, an intelligent GitHub repository analyst powered by RAG, ChromaDB, and locally hosted LLMs. Strong foundation in machine learning, data analytics, and software development, with a passion for engineering scalable, intelligent solutions to real-world problems. Eager to contribute technical expertise, problem-solving abilities, and a continuous learning mindset to an innovative AI engineering team.

EDUCATION

B.Tech in Computer Science and Engineering
Parul University, Vadodara, Gujarat
CGPA: 7.5/10

Expected Graduation
2027

+2 in Science
National Infotech
CGPA: 3.02/4

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, SQL, HTML, CSS
- **Generative AI & LLMs:** Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), AI Agents, Prompt Engineering, LLM Integration, LangChain, LangGraph
- **AI/ML & Embeddings:** Machine Learning Fundamentals, Sentence Transformers, Text Embeddings, Semantic Search, Similarity Search, Vector Retrieval
- **Frameworks & Backend:** FastAPI, Streamlit, React.js, Node.js, Express.js, REST APIs
- **Databases & Vector Stores:** ChromaDB, MongoDB, MySQL, Vector Databases
- **Tools & Platforms:** Ollama, Qwen2.5, Git, GitHub, VS Code, Postman
- **Data Analytics:** Pandas, Microsoft Excel, Power BI, Data Cleaning, Exploratory Data Analysis (EDA)

• PROJECTS

1. RepoMind AI – Intelligent Multi-Agent GitHub Repository Analyst
Python, FastAPI, RAG, ChromaDB, Ollama, Qwen2.5, Streamlit, Sentence Transformers
• Developed and deployed an AI-powered GitHub repository analysis platform that enables users to understand codebases and ask natural-language questions about repository content.
• Engineered a Retrieval-Augmented Generation (RAG) pipeline with code parsing, intelligent chunking, local embeddings, and semantic search using ChromaDB.
• Integrated locally hosted LLMs using Ollama and Qwen2.5:3b to generate context-aware answers grounded in retrieved code.
• Built RESTful APIs using FastAPI for repository analysis, code indexing, semantic retrieval, and AI-powered question answering.
• Developed an interactive Streamlit dashboard and deployed the application for public access.
https://github.com/sheikh123-beep/RepoMind-AI

2. Creator Bridge – AI-Powered Creator–Brand Collaboration Platform
React.js, Node.js, Express.js, MongoDB, Google Gemini API
• Developed a full-stack platform connecting content creators and brands through campaign discovery, applications, collaboration, and communication.
• Implemented secure authentication using Email OTP and JWT-based authorization with dedicated Creator and Brand workflows.
• Integrated Google Gemini API for AI-powered creator matching and automated campaign generation based on campaign requirements.
• Built REST APIs and deployed the application using Vercel, Render, and MongoDB Atlas.
https://github.com/sheikh123-beep/creator-bridge

3. RAG-Based AI Knowledge Assistant
Python, LangChain, LLMs, Embeddings, Vector Database
• Developed a Retrieval-Augmented Generation (RAG) application to retrieve relevant information from custom documents and generate context-aware responses.
• Implemented document loading, text splitting, embedding generation, and vector storage for semantic retrieval.
• Integrated an LLM with the retrieval pipeline to support contextual question answering.
• Applied prompt engineering and similarity-based retrieval to improve response relevance.

CERTIFICATIONS

IBM RAG and Agentic AI Professional Certificate — Coursera / IBM | September 2026
RAG, Agentic AI, LangChain, LangGraph, multimodal AI, tool/function calling, and multi-agent architectures.
https://coursera.org/verify/professional-cert/3I6PLEVZ0I82

AI Foundations — Simplilearn | September 2026
https://certificates.simplicdn.net/share/10754344_11117398_1789814046010.pdf

Research Publication – NCCT 2026 | October 2026
• Authored and presented a research paper on Evapotranspiration Analysis in Kutch, Gujarat, using NASA POWER data and Google Earth Engine validation.
